OPERATION IDENTIFICATION

Crime Prevention ...
The affordable alternative.

Operation Identification . . .

A community venture into a property identification and inventory system that works to protect you and your property.

HOW IT WORKS

Operation Identification is a program designed to discourage theft of valuables from your home and other locations through easily identifiable stolen property.

This program has dramatically reduced the profit in stolen goods. Marked articles are difficult to dispose of and easily traced. Thus, if it is advertised that your valuables are protected by Operation Identification, you are less likely to be victimized.

Operation Identification works whether your property is stolen or lost. Proper identification makes it easier for police to return personal property.

HOW TO YOU JOIN?

Contact your local police or community crime prevention association. You will be loaned an electric engraver, free of charge. You will also receive a Valuable Property Record Sheet and decals. Large decals are for placement on all points of entry to your premises. Other smaller decals are available to place directly on marked valuables.

WHAT NUMBER DO YOU USE?

HOME AND APARTMENT

Use a personal identification mark such as a driver's licence number.

BUSINESSES, SCHOOLS AND ORGANIZATIONS

Contact your local police and obtain a special identification number.

HELPFUL HINTS

- Don't put decals on your doors or windows unless you have engraved your property.
- Be sure to make a record of your property. Keep it in a safe place.
- When engraving, hold the tool straight up, not on a slant.
- The engraving tool has a depth adjuster. For hard surfaces, adjust the knob to a louder setting.
- For deterrant purposes, the identification number should be readily visible, without marring the appearance of the item. A second hidden number can be applied for additional security.

REMEMBER . . .

There are other citizens waiting for you to return the engraver.

BE CONSIDERATE

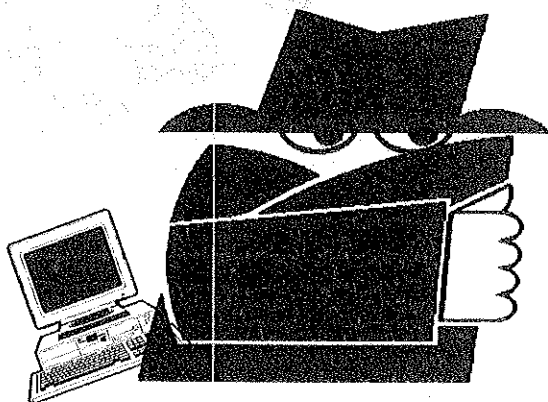

Complete your marking and return the engraver within the loan agreement time.

TAKE THE OFFENSIVE

Operation Identification is one basic step to prevent theft. Good lighting, good locks, good sense and other security precautions can be taken to prevent crime in your community.
